No. 43

THE AUTONOMY BILL

INTRODUCED IN THE HOUSE

Boundaries and Financial Conditions of the New Provinces—Edmonton a Capital.

Ottawa, Feb. 21st.—The Premier this afternoon introduced the bill creating the new provinces of Alberta and Saskatchewan. The fourth principal meridian is the boundary between the provinces and they extend from the international boundary to the 60th parallel, the northern boundary of the present district of Athabasca.

Edmonton is named as the provincial capital of Alberta and Regina of Saskatchewan.

There will be twenty-five local constituencies in each province.

The revenue arrangements are the same for both. The initial annual grant is \$1,000,000 which increases with the increase of population until with a population of 1,200,000 the revenue will be \$2,220,000.

Beside this amount \$312,000 will be allowed each province during the first five years of its existence for the erection of Provincial buildings.

The present school system will be continued. The Dominion Government retains the control of Crown lands.

The Premier made an eloquent speech to a crowded House and well filled galleries.

Mr. Borden congratulated the premier on his change of heart regarding provincial organization, declared for the provincial control of the crown land, deprecated any attempt to make the school question a political issue and asked for a world of detailed information bearing on the location of the boundaries of the local constituencies and capitals.

Mr. Sproule congratulated the Premier on bringing into the provincial family such a healthy pair of twins and asked for a month's delay before the second reading of the bill.

THE MURDER TRIAL

CONTINUED IN POLICE COURT.

Indians from the Lesser Slave Lake Tell of the Finding of Cues.

The preliminary investigation into the charge of murder preferred against Chas. King was resumed in the city police court before Inspector Worsley yesterday afternoon. The first witness called was Bazine Magnequanaqua who had been sworn before the adjournment for lunch.

Continuing his evidence the witness through the interpreter said he had been at the slough with Sergeant Anderson and had helped him with the canoe.

He had seen nothing recovered from the slough.

Moostoo was there using a rake but nothing was found while witness was looking on.

He was at the camp fire in the neighborhood of the slough. Was there twice, in the same day, once before and once after noon. There were two men at the camp at the time.

He unhesitatingly pointed out the prisoner as one of the men he had seen there.

He thought he would know the picture of the other man if shown it.

A photograph of two men was produced in which witness at once pointed out the missing man. When witness saw him he had a beard but could identify the picture from the appearance of the upper part of the face.

On his first visit to the camp the absent man was making a net. Witness spoke to him and he returned the salutation.

Had noticed a dog tied to a tree at the camp. Was tied with a bright colored chain. Had noticed it specially as he had never seen one like it before.

A small collie dog was here produced and identified by the witness, also a metal dog chain and collar.

(Continued on page four).

DELAY OF CIVIC BUSINESS.

Though two busy months of the year are almost gone the civic machinery designed by the city charter is still incomplete and the council are not abreast of the general business which has arisen. In a measure the latter fact may be due to the former.

The purpose of the provision made in the charter for the appointment of city commissioners was to relieve the Aldermen from the details of municipal business and leave them free to direct the general policy and oversee the affairs of the city. Considerable time was lost in selecting the two commissioners to be appointed and one of these has not yet taken up his duties. The absence of Mayor McKenzie at Ottawa left only one commissioner on duty and though the places of the absent officials are being capably filled by Alderman May and McLeod the derangement of business made unavoidable by a frequent change of officials will probably be considerable. An illustration of this is afforded in the fact that preparations for the contemplated water and sewer service extensions are at a standstill. The material for this work was ordered some time since and a portion has already arrived. No contracts for the labor however have been let and it is not definitely known how many extensions will be made or what the probable completed cost of the work to be done during the present year will be, these matters having been left until the arrival of Mr. Hargreaves.

Nor is the council certain of the powers, responsibilities and duties of the commissioners. This was shown at the meeting on Friday evening last when a lengthy discussion arose over the method of certifying accounts. The account in question was for the payment of sewed pipe the purchase of which was ordered by the council some time since. The bill was certified by the city engineer but it was held by some Aldermen and finally resolved that the account should be investigated by the finance committee as well as by the Finance Commissioner before coming up to the council for payment. Considerable difference of opinion developed over the point and served to make it clear that the Aldermen are not unanimous in their interpretation of the duties which should be placed upon the Commissioners. This uncertainty is bound to deter the progress of the council very materially. If an account for goods purchased in such quantities and at such prices as the council direct and the receipt of which is acknowledged by the city engineer require the endorsement of a committee of the council as well as that of the Finance Commissioner it is not clear that the appointment of a Finance Commissioner has lessened or can lessen the volume of detail work devolving on the council.

These delays in getting the governmental machinery provided by the charter into normal working conditions have necessarily retarded and will continue to retard the progress of the council in the general business of the city.

Orange Meat
A Perfect Food

Superfluous Hair

Removed by the New Principle

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is endorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. Write for it to-day to DE MIRACLE CHEMICAL CO., 23 QUEEN STREET WEST, TORONTO, or THE ROBERT SIMPSON COMPANY LIMITED, TORONTO, ONT.

ROSS BROTHERS LIMITED

ARE THE SOLE AGENTS
IN EDMONTON FOR THE

MONARCH
RANGE...

There is no question as to what this Range can do or its durability, as thousands and thousands of them are in use on this continent, and so far as we have been able to learn no fault has yet been found with them.

The main body of this Range is built up of sheet steel, and all the other parts that require to be cast are malleable iron. The top is ground to a bright steel finish, and is so heavy that, no matter how long or how hot you heat it, you cannot make it warp or get out of shape.

You will notice that the oven has a drop door, and the above cut illustrates the strength of this door, as any man can stand on it when it is open without straining it in the least. This will give some idea of the strength of the Stove, as all its parts are as strong as this cut of the oven door open with the salesman standing on it would convey to you.

It is a wonderful baker, a very quick heater, and its water front is so constructed that it will heat water nearly twice as quick and on a much less quantity of fuel than any other Range now on the market.

The purchaser of a MONARCH RANGE insures a satisfaction that cannot be measured in dollars and cents, for at the end of ten years' use it will operate as easily and be just as good as when first started.

Remember the MONARCH when you want to purchase a Range.

Ross Bros. Ltd.

THE FIRE BY LAW

WAS PARTIALLY RESCINDED

Regular weekly meeting of the city council—No license for coal men

The city council met in the chamber last evening, Ald. May presiding and Ald. McLeod, Clark, Fraser, Bellamy, Poirard and Griesbach present.

THE FIRE BY-LAW RESCINDED.

Mr. F. Deggendorfer appeared with a petition from a large number of property owners in blocks 2 and 3 asking that the fire by-law as it applied to those blocks be rescinded. After a brief discussion the request was granted and the solicitor instructed to prepare an amendment to the by-law in accordance.

CITY MUST CLEAN UP.

J. R. Ewing addressed the council on the unsightly condition of many of the lanes and alleys in the city. The dumping of ashes and manure in lanes was a nuisance to teamsters and a menace to the public health. A motion was carried calling the attention of the chief of police to the matter.

The Public Works Commissioner was given power to remove two small buildings from a lane in the eastern part of the city.

DECLINED COALMEN'S REQUEST.

Mr. Ewing was present to press the claims of the coal men. The report of the committee on their request however was to the effect that they were unable to find a legal and effectual way to meet the petition and a motion to adopt the report carried, side-tracking the question.

RE ISOLATION HOSPITAL.

The Medical Health Officer presented a long report from Dr. Kennedy, inspector of hospitals, recommending that the public hospital building be secured for an isolation hospital and if possible Edmonton and Strathcona unite in the erection of a suitable hospital for the treatment of ordinary cases. The Finance Committee were asked to look over the buildings owned by the city with a view of selecting one for an isolation hospital.

MAY WIDEN STREET.

A. Brown called the attention of the council to the need of widening Boundary Avenue north of Jasper. The Streets and Parks Committee will look into the matter.

MISCELLANEOUS.

A refund of \$1.00 was ordered to be paid D. B. S. excess pound charges. A letter from A. Bruce re debentures and one from P. Oliver, M. P. re the Ottawa Electric Railway were ordered filed.

W. Chipman went along bound blue print, plans of street connections and house services, the cost by contract being \$63.00.

Mr. Hargreaves newly appointed Public Works Commissioner wired from Medicine Hat on Monday "Coming via Lethbridge".

RAISED THE FEES.

The Police and License committee reported to Mr. Dowley's communication, recommending that pedlars be charged \$25 for the first day and \$2 per day subsequently. The report was altered and the fees for subsequent days made \$5.

PUBLIC WORKS COMMISSIONER'S REPORT.

K. A. McLeod, acting Commissioner of Public Works reported as follows: That a refund of \$1 be made to Mrs. Hutchings on account of the wrongful impounding of his dog.

That the scavenger be instructed to not impound farmer's dogs and that when such is done in error they be released on demand.

That notice for the regulation of the market business would be put up at an early date.

That an order had been given Kelly & Beals for a truck for the boiler.

The report was adopted.

SUNDRY MATTERS.

The Finance Commissioner brought up the account of the Leader Times Co. Regina, for printing 56 copies of the city charter \$184.67. The company had refused to accept 1-3 of his amount and the account was ordered paid in full.

The account of C. W. Sutter, for \$200 for an immigration pamphlet published last year was ordered paid. A request from the streets and parks committee was adopted to the effect that the time was not ripe for the purchase of an asphalt paving plant.

The same committee reported that as the city had no definite power under the charter to purchase a park nothing be done at present with the offer of the Exhibition Association. The report was adopted.

The city engineer submitted a plan for dividing the market into sections for convenience and economy of space. The matter was laid over for two weeks.

The reception to be tendered Mr. Mora of the G.T.P. was briefly discussed, the accounts ordered paid and the meeting adjourned.

THE MURDER TRIAL.

(Continued from page one).

On his second visit to the camp, during the afternoon the missing man was repairing a gun which had been broken at the grip just behind the trigger. He had told witness it was a good gun on which witness took it and examined it. The break had been covered with leather which the man was sewing, using a hand strap to shove the needle and was using some substance on the thread which looked like hard tar but was not this,

by the witness as the one he had been shown at the camp fire. He recognized a small piece of willow which had been gummed into the stock under the leather wrapper.

A hand strap was also identified as the one the missing man was using.

At the time of witness second visit to the camp King, the prisoner was making bread, he was cooking it in a kettle in the coals.

A small iron kettle was produced and identified by the witness by a piece of wire attached to it.

Witness had remained in the camp some time. After King had finished baking he prepared a meal and the missing man asked witness to join them. He did not do so but waited until the two men had dined. The other man had then told the prisoner to cook some bacon which he did and set with bread and dishes before witness who ate it.

During his visit he noticed a sharp pointed iron at the camp with a wooden handle three or four feet long. He had noticed the handle particularly because it was not the kind of wood he was used to in that country.

A sharp pointed hollow iron cone was produced which had evidently been burned, the charred wood still remaining in the iron. Witness said this was like the head of the pole he had seen.

He also saw in the camp some traps. One was a bear trap with an unusually long chain. He identified a bear trap produced by the peculiarly shaped ring on the end of the chain. He had not been able to see the body of the trap at the camp as it was covered by the other traps which were piled on it. Witness asked what the bear trap was worth in Edmonton and the missing man had told him \$10.00. He had asked the stranger "where you" meaning "where are you going" and he had answered "Peace River". King had been about the camp all the time but had not spoken to witness nor been spoken to by him.

While he was in the camp tea had been boiled in a small kettle with a piece of wire attached to this also. He identified a small galvanized iron kettle as the one used.

Cross examined by Mr. Biggar for the defence, witness said it was nearly noon when he first visited the camp and probably four hours after noon when he visited it the second time.

The next witness called was an Indian named Koomyem, who lived near the scene of the crime. He lives by fishing and passes every day by the spot where the men King and Hayward were trapped. He said he saw them often while they were there. He saw them for three days and on the night of the third day while at his house which is but a short distance away heard the report of a gun which came from the direction of the camp. (Witness claims that the report sounded muffled as if the weapon had been discharged into the earth. The next day while returning from his work he met King passing along a small wood trail with all of the four pack horses which the two men had had, and their packs. He said nothing to King but went to the deer camp and looked about. When there he discovered a track of

THE MURDER TRIAL.

Continued from page 4.

a man leading to the slough which was near by but upon following this track he noticed that it led right into the water from which it again emerged at some distance from where it went in.

At this point the horses before mentioned in the evidence were brought from the barracks and identified by several of the Indians of the Moostos reserve.

Moostos the chief of the Indians on the Lesser Slave Lake reserve was next called and gave evidence to the effect that he went along with Sergeant Anderson and a couple of other men to the deserted camp of the defendant and Hayward. There they found the exhibits as mentioned by Anderson and former witnesses. Chief Moostos told in the incidental way of an Indian how he discovered the blood spots and particles of the brain on the leaves near the camp fire, how he dug in the earth with his hands and uncovered the pieces of supposed human flesh before mentioned and how they went to the edge of the slough and while there found the boots and soles of shoes. He stated that he found a boot in the toe of which was a bundle wrapped in a cloth.

He enumerated several articles contained in the parcel removed from the shoe. They were: pair of small scales, a round object somewhat like a watch several weights contained in a small sack, the eye of a needle which when examined was found to correspond with the piece found in the ashes, a discharged cartridge, a loaded shell, an ornamental scarf pin.

A sovereign case, scales, weights, and pin were shown witness and identified by him.

He was shown a palm strap such as is used for sewing and said one similar to it was also found in the boot.

Later on witness had given Serg't Anderson part of a boot which had been cut off above the sole.

Witness had been present at the camp fire when his son Alexander found the first piece of bone. Other pieces of bone had also been given him. He turned them over to Serg't Anderson. Altogether he brought three pieces of bone were found. Did not know whether he gave Serg't Anderson the bones the same day or the next, or at the camp fire or at his house. Was at the camp fire when the other pieces were given him.

After the slough had dried up he made an examination of it and found a buckle of bright metal. Witness identified one shown him.

His son had also found a small object about a half inch long which witness had concluded was a portion of a tooth. It was wrapped in paper and turned over to Serg't Anderson.

A button and two other small objects were shown witness. He knew these had been found at the fire but did not know if they had been given to him or to the Sergeant. When the police were not present any articles found were given him and he gave them to the officer in charge of the detachment.

After a brief cross-examination by Mr. Bigger for the defence the court adjourned until 10 a.m. today.

The hearing this morning started in with the Indian Okimow on the witness stand. He was the Indian who waded into the slough near the camp site and found the pair of boots in one of which was a parcel containing the sovereign case, stick pin and minor's scales and weights that belonged to the deceased and which were identified by the brother of the dead man. The parcel in the boot also contained the piece of needle that when matched with the piece found in the fire by Sergeant Anderson fitted perfectly. There were a good many small buttons and a couple of cartridges also found in the same place.

The next witness called was Alex-

THE GREAT WEST
LAND CO., Ltd.

Under Moostos a son of the Chief Moostos who was on the stand yesterday and is the Chief of the Lesser Slave Lake Reserve. He testified to the effect that in company with his father and Prince, another Indian, he went down to the deserted camp-fire and while there found three pieces of bone in the ashes, which he gave to his father. At this time he also found what seemed to be a tooth.

John Prince was next called and beyond corroborating the story told Okimow he went on to tell how, while in search of horses he went over the Sturgeon Lake trail, the next day after the deceased Hayward is claimed by King to have travelled the same trail. Prince says that if a man had been alone the trail the previous day he would surely seen his foot print as he was watching the ground very closely for any signs of lost horses.

The next witness called was Samuel Cunningham who gave testimony that he saw Anderson find the pieces of bone while he was fitted with the other three pieces found by Moostos made the perfect upper part of a human skull. He then went on to tell about having, while going down the river in his boat, seen two men on the shore great-cultivating to one another. As he was watching them they beckoned for him (witness) to come in. This he did and upon landing found one of the men to be one of his neighbors and the other that man, (pointing to the defendant King.) King wished him to act as interpreter and persuade the Indian to take him across the river for which he agreed to pay him in sugar claiming not to have any money. This the Indian agreed to do.

He (Cunningham) then talked some time with the defendant, asking him where he was going. King answered: That he had intended to go to the Peace River country to trap but had changed his mind and decided to go back to Edmonton and that he would like to sell his outfit which had cost him \$500 for \$300. Witness said he couldn't buy it but that if he went across the river to Fredin & Cornwall's or the Hudson's Bay Co. store they might buy it. Didn't meet him again until a couple of days later when King wished to buy some fish of him offering in payment a small dog that he had with him. Witness asked King why he wished to part with the dog, and King replied, "He went away with me. I just got him the other day from Angus (McLean) (one of the settlers) and he is always trying to get away."

The balance of the witness testimony was to the effect that when Sergeant Anderson took the four pieces of bone which had been found and fitted them together, they fitted exactly and the edges of the bones were like the teeth of a saw.

**WILL ENTERTAIN RAIL-
WAY MEN.**

Considerable discussion took place at the council meeting last evening over the proposed visit of Mr. Morse, General Manager of the G.T.P. and party who are expected to arrive in the city during the week. It was felt that a suitable reception should be tendered the visiting railway men and they will probably be banquetted at one of the city hotels.

The visitors will probably be asked for some definite statement as to the location of their right of way through the city and other matters concerning the city. The suggestion was made that the company be asked to co-operate with the city in immigration matters. The connections of the Grand Trunk Company in the East and in the United States should make an excellent channel through which to distribute information regarding the city and district and it was considered that the company should be interested in turning the tide of immigration into the Saskatchewan valley.

CITIZENS MEETING HELD.

A citizen's meeting was held in the council chamber yesterday afternoon at which several matters of public interest were discussed. The most important business was the passing of the following resolutions:

"That Messrs. J. A. McDougall and Ex-Mayor Short be a committee to act with the city council in arranging a suitable reception for Mr. Morse and party."

"That the Board of Trade be asked to submit a plan to the city council for opening an immigration office in the business section of the city."

WINTER EAST AND WEST.

The present winter should see the end of the old fashioned idea that the North West was a cold and stormy land compared to the favored provinces of the east. The school boy of Ontario was taught not so many years ago that next to the ferocity of the Western Indians the severity of the Western winter was to be dreaded, that for long months the great plain country between the great lakes and the mountains was held in the grip of unrelenting cold and swept by blizzards which imprisoned the settlers in their own homes. The past few winters have played havoc with this doctrine. Last winter white trains on every railway in Ontario were snow blocked and towns of the importance of Collingwood and Goderich were isolated for days. The trains on the Calgary-Edmonton line were never late on account of snow drifts and throughout the entire Northwest the interference with traffic was of little consequence, the present winter is repeating history. While the streets of Halifax are piled with ten feet of snow and the electric sweepers have to be dug out by hand while trains are stalled and engines buried on every railway in the province until the means of communication have been practically suspended, while the legislatures of Prince Edward Island and Nova Scotia have been adjourned because the members could not reach the capitals, while from New York, Montreal, Quebec and Buffalo come stories of terrific storms and intense cold, the people of the West have been enjoying weather which though generally cold has been bright and calm and in no way dangerous or even unpleasant. The trains have as a rule been excellent and traffic by road and railway has suffered little if any from blockades. While in the eastern portion of the West the cold has been pretty uniform the temperature has frequently relaxed in Alberta into mild and most enjoyable weather. For a considerable time the weather in Northern Alberta has been so mild that the sleighing on the streets of the city and on some of the more travelled country roads has become poor and the only complaint heard is the need of a snow fall. The trains on the C. & E. have run during the winter without interruption and freighting from the city to outlying points has been carried on steadily under most satisfactory conditions. Lumbermen have had an ideal season, the weather not being cold enough to interfere with work and the snow though sufficient for handling the timber easily has not been deep enough to be troublesome.

SADDLE LAKE.

Correspondence

Forty-three to go on Saturday. Our cold snap has passed away and we are enjoying fine mild weather now.

Mr. Chas. Greenstreet passed through on his way to Edmonton.

Messrs. Tomkins and Smith of Whitefish Lake made a trip to Whiteford for oats.

Mr. Chas. Leonard returned from the Vermilion district on Saturday.

Mr. G. G. Mann Indian agent, made a business trip to Whiteford last week.

Mr. George Brown of Boyce passed through on his way to Ball's the camp where Mr. Joe. Longdon has secured a job for the winter.

Mr. Jacob Chappell has been taking measurements for the new bridge to be erected over the Beaver River north of Whitefish Lake.

Word has been received from Mr. Albert Powell, Seattle, that he expects a large number of settlers will come into Welch Valley in the spring.

Mr. John Smith of Victoria paid us a flying visit this week.

Rev. R. R. Steinhauer preached at Fiddle Lake on Sunday.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting sections 12, which has not been subdivided, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section of 160 acres more or less.

ENTRY.—Entry may be made for the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of the homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantial.

The privilege of a second entry is restricted by law to those settlers who have completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

MADE BY HAND

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicurega district, in the Province of Santa Clara, is the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

My Pharaoh makes a mighty good smoke for the money.

EDMONTON ALTA. CANADA

POPULATION, 7,500

CITY GOVERNMENT:

Mayor, K. W. McKenzie; Aldermen, C. May, K. A. McLeod, W. E. Clark, D. E. Fraser, J. R. Boyle, T. Bellamy, J. H. Fiear, W. A. Griesbach.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:—D. W. Sutter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

LOCAL

—Train 1 hour and 15 minutes late.

—Probe fair and milder.

—Geo. Fortier, W. Wells and John Schinke, the three boys arrested on a charge of theft were last night remanded for one week.

—Revillon Bros. have flags on their buildings celebrating the announcement of the location of the capital in Edmonton.

—Flags are flying today on the city hall and several of the stores in honor of the establishment of the capital at Edmonton.

—Aubrey Serdona came up in the police court last evening and was given ten days for the theft of a tobacco pouch. He was given six months extra for having broken prison.

—In Supreme court yesterday judgment for \$175 was given for the plaintiff in the case of Illerbrun vs. Shaw. The case McLean vs. Dietz was dismissed with costs against the plaintiff. This morning Jalley vs. Jalley, a suit for alimony came up.

—Box and Cox which will be given by the Edmonton Operatic Society next week is Sir Arthur Sullivan in his finest vein. The music is full of alluring harmonies. The lullaby song for tenor is one of the most exquisite songs he has ever written. The Comedy is exceedingly funny and abounds in humorous situations.

PERSONAL

A. S. Going G. T. P. surveyor came in from Victoria last evening.

C. C. Van Arsdal formerly of the Grand Trunk Co. has come in last night from Victoria.

MARRIED

PHILIPS—RULE:—At the residence of Dr. Smith, first street, Edmonton, on February 21st, Tuesday, at 4:30 p.m., by Rev. R. E. Findlay, of Clover Bar, Hiram Henry Philips, of Telford to Mary Pearl Rule of Edmonton.

Telegraphic Briefs.

Toronto, Feb. 21st.—It has been decided that the future speaker will have complete control of the legislative offices and the House and appointments.

Montreal, Feb. 21st.—1086 English immigrants have arrived here en route to the North West.

Montreal, Feb. 21st.—John Jensen was killed by a snow plow here.

Quebec, Feb. 21st.—Rumors of a settlement of the Cabinet row are again current. The terms not announced and neither sides will allow themselves to be quoted for publication. Premier Parent is ill and one rumor says the matter will be adjusted by the voluntary retirement of Parent.

The resignation of F. W. Heuback manager of the Winnipeg Industrial Exhibition has been accepted.

Fewer Expert Hazen says Winnipeg's waterworks and sewers are inadequate.

NEW OIL COMPANY

TO DEVELOP EGG LAKE PROPERTIES

The Canadian American Oil Co. incorporated—Work will be begun at an early date

A large company has been formed to develop the Egg Lake oil field under the name of the Canadian American Oil Co., Ltd., with a capitalization of \$1,000,000, divided into 100 shares. To the company are to be transferred the leases of property in the neighborhood of Egg Lake recently secured by Messrs. H. A. Williams and G. W. McIntosh. These cover 480 acres of land and run undisturbed until about the middle of 1905 carrying with them rights of purchase at any time during their currency at different prices averaging about \$10.50 per acre for the whole.

The directorate of the company is strong one comprising Messrs. B. Secord, T. A. Stephens, J. L. Mills, K. A. McLeod and O. M. Biggar, and the company's enterprise under their auspices will doubtless receive the excellent management it deserves. It is the intention to make immediate arrangements for the development of the company's properties. The work will be managed by Mr. H. L. Williams.

The company was incorporated on the 17th inst, the application being signed by the present directorate.

FARMERS' MEETINGS.

W. J. Koen, organizer for the Canadian branch of the American Society of Equity left today for Rabbit Hills to organize a local union.

A meeting for a similar purpose will be held in the Namoo school house on Friday, Feb. 22nd, at 7 p.m.

The executive committee of the Popular Lake Union meets in the school house on Saturday, Feb. 23rd at 2 p.m. All members are requested to be present.
